

**National Jewish
Health**

**Advanced Diagnostic
Laboratories**

Dear Valued Client:

The procalcitonin (PCT) test currently performed at National Jewish Health will be discontinued and replaced with an orderable send-out test after a planned systems upgrade is completed later in the calendar year. In the interim, if procalcitonin testing is desired by a clinician, a miscellaneous test must be ordered in EPIC. Procalcitonin samples can be referred to Saint Joseph Hospital as we work on finalizing the upgrade.

We apologize for any inconvenience this may cause. If you have any questions, please contact our Client Service Team at 800.550.6227 or via email at ClinRefLabs@NJHealth.org.

Sincerely,

A handwritten signature in blue ink, appearing to read "Steve Groshong". The signature is fluid and cursive, with a long, sweeping tail on the final letter.

Steve Groshong, MD, PhD

Medical Director, Advanced Diagnostic Laboratories

National Jewish Health
